Cluster 4

Results

Based on dataframe analysis above Cluster 3 (Upper West Side) and Cluster 4 (Morningside Heights) areas are the best places to open a new sushi bar business.

Discussion

01

This analysis is performed on limited data, results may vary. But if good amount of data is available there is opportunity to get better results.

02

There is high competition in Midtown and Soho so it is very risky to open business in these areas.

03

Central Harlem has also potential where close to Morning side Heights area.

04

More detailed analysis is suggested by adding other factors such as transportation, demographics of inhabitants, etc.

Conclusion

ALTHOUGH ALL GOALS OF THIS PROJECT ARE MET, THERE IS DEFINITELY AN OPPORTUNITY FOR FURTHER IMPROVEMENT.

APART, GOALS OF THE PROJECT, THIS CAN EASILY BE EXTENDED INTO A FULLY FUNCTIONAL APPLICATION THAT COULD SUPPORT THE ENTREPRENEURS' IN OPENING A NEW BUSINESS IN AN UNKNOWN LOCATION.

Thanks.
